

## Non-Combustibility Compliance Product Statement

### Siniat Weather Defence External Sheathing board

#### Ref: AUS2001

Siniat Weather Defence board is a plasterboard product manufactured to meet and exceed the requirements of AS/NZS 2588:2018 (Gypsum Plasterboard), as such it is Suitable for use in applications where Non-Combustible materials are specified by the Deemed-to-Satisfy Provisions under the following Clauses:

- C1.9(e)(i) of NCC 2019 Volume One
- 3.7.1.1(i) of NCC 2019 Volume Two
- C1.9(e)(i) of NCC 2016 Volume One (Amdt 1)
- 3.7.1.2(i) of NCC 2016 Volume Two

Siniat Weather Defence is produced using a slurry of calcium sulphate dehydrate(gypsum) within an automated lamination process between 2 sheets. The sheets are a proprietary and patented technology based on non-woven glass fibre mat.
